FILMING /PHOTOGRAPHY/AUDIO STATEMENT

Worle Community School endeavours to widen the experience of students through the use of modern technology. There will be occasions when students work with cameras, videos and sound recording equipment in the course of their work at school. Images and sound captured in this way could be used as part of class work, coursework or display within the school.

There may also be time when students' multimedia work will appear in publicity such as handbooks, prospectuses displays and websites and in the press.

There will be occasions when joint work between Worle Community School and other schools or outside organisations will be taking place, both on our school grounds and in other areas. Students' multimedia work and its results will be supervised by teachers and other adults with responsibility. Any work considered inappropriate will be deleted.

Images and sound will be used for educational purposes and for documenting experiences. It may be used by partner organisations on their websites, in publications, promotional material and as advocacy and display at events and presentations but the name and age of the young person will not be stated.
